- Email welcome campaign
- Product video
- Feature video
- Product naming

Billing

- Payments flow
- Settings redesign
 - Inviting and managing team members
 - Inviting and managing clients
- Billing email notifications
- Expired account roadblock

Halted Projects

These are projects that were officially kicked-off but then de-prioritized for a variety of reasons. One of the most common of which the exploration process in product, design, or engineering revealed that the value and benefit of the project wasn't adequate in that environment.

- Template layout improvements
- User groups (permissions overhaul)

- Design system
- Tone guide
- Drafts
- Status expansions
- Adding new clients in team members component
- Managers view
- Reactivating expired accounts
- Bulk changes
- Relaunching project series
